WWRS Applications Inventory/Account Mgt

AFSAC

•***Note: This program replaces: Inventory Adjustments, Suspensions/Deletions, Item Maintenance, and Offers - Mass Deletions.***

•**Account Management:** This application will allow for setup and modification of WWRS Seller Accounts. Thee sellers will have the means to manage their accounts (seller selection variables) as well as manage the "Identifiers" for these accounts. Sellers will have the capabilities to manage AFSAC Online user access to their accounts and associated identifiers.

•**Inventory Management:** This application will also allow the WWRS Sellers to manage their inventory in WWRS. WWRS Inventory is defined as material listings available for sale at the given price. The system will allow the sellers to add/modify/delete their inventory listings one at a time or via a dataset upload utility. WWRS eligibility for all material listing will be performed by the system against both the Air Force Catalog and USAInfo. Sellers will also be given the capability to work inventory suspense's that may occur as a result of eligibility constraints.
